Programming & Web: Python, MATLAB, Git/GitHub, Figma, Web Development
Design: Graphic Design, Web Design, Video Editing, Photography, Social Media Management

PROJECTS

Vivifi – Live Gradebook & Interactive Syllabus June 2026 – September 2026

- Top 3 Finalist out of 200 projects Nationwide for Stellic's Pathfinder's Challenge and presented project to ~250 higher education professionals at Stellic Partner Summit 2026
- Designed user flow and product vision addressing higher education friction points and AI integration for students
- Engineered a live demo prototype and functional proof-of-concept in under 3 weeks using AI-assisted development workflows (Cursor, Claude Code)

Pill Dispenser Mechanism November 2025 – December 2025

- Collaborated in a 4-person team to engineer a physical mechanism delivering timed outputs under tight dimensional constraints.
- Evaluated motor performance and configured custom gear ratios in SolidWorks to ensure reliable, continuous 30-second interval timing.
- Rapidly prototyped functional physical models utilizing 3D printing, laser cutting, and woodworking to validate assembly.
